

**Health
First**

WHAT IF YOU COULD SAVE A LIFE?

It is estimated that each year approximately 310,000 Americans die of cardiac arrest occurring at home or in a public place.

The American Heart Association's **Heartsaver CPR and AED** class contains information on how to perform the basic skills of CPR for adults, children and infants, and how to help an adult, child or infant who is choking.

This program offers community members of all ages the opportunity to learn basic CPR in a dynamic group environment. Each participant will earn an American Heart Association **Heartsaver CPR and AED** certification card.

Please visit www.Health-First.org/Training and click on the "Events and Classes" links for **Heartsaver CPR and AED** class listings and for more information.

The Health First Training Center offers a variety of courses for the community and healthcare providers, including Pediatric First Aid and Adult/Child First Aid.
